STEEL SAFETY LOCKOUT HASP

Steel Lockout Hasps are made from high quality steel and Polypropylene injection molded handles. Steel Hasps allow upto 6 padlocks for isolating energy source in a LOTO program involving more than 1 peron. The high quality steel and PP handles make is heavyduty for use in all weather conditions.

MODEL# : LMHS1

CLAMP DIA: 25 mm

MATERIAL: STEEL

CAPACITY: 6 PADLOCKS

BODY: POLYPROPYLENE

8 mm HOLE DIAMETER

MODEL# : LMHS2

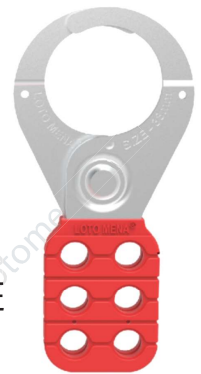

CLAMP DIA: 38 mm

MATERIAL: STEEL

CAPACITY: 6 PADLOCKS

BODY: POLYPROPYLENE

8 mm HOLE DIAMETER

ALUMINUM SAFETY LOCKOUT HASP

Aluminum Lockout Hasps are made from high quality Aluminum and Polypropylene injection molded handles. Aluminum Hasps allow upto 6 padlocks for isolating energy source in a LOTO program involving more than 1 peron. The high quality Aluminum hasp is an antispart hasp and can be used for both mechanical and Electrical isolations.

MODEL# : LMHA9

CLAMP DIA: 25 mm

MATERIAL: ALUMINUM

CAPACITY: 6 PADLOCKS

BODY: POLYPROPYLENE

8 mm HOLE DIAMETER

MODEL# : LMHA10

CLAMP DIA: 38 mm

MATERIAL: ALUMINUM

CAPACITY: 6 PADLOCKS

BODY: POLYPROPYLENE

8 mm HOLE DIAMETER
